Amendments to the Specification

Please replace paragraph [0006] with the following amended paragraph:

[0006] Referring to FIG. 5, a color filter described in US Pat. No. 6,285,424 issued on 9/4/2001 is ~~disclosed~~ shown. The color filter 1 ~~comprises~~ includes a black matrix 9 ~~[[ha]]~~ formed on a transparent substrate 2. The black matrix 9 ~~comprises~~ includes first and second antireflection films 3, 4, and a metal screening film 5 formed one on top of the other in that order. The antireflection films 3, 4 are made ~~[[of]]~~ from different kinds of metallic compounds having mutually different compositions. At least one of the films 3, 4, 5 contains chromium (Cr). In addition, RGB color resins are filled separately in apertures of the black matrix 9.

Please replace paragraph [0023] with the following amended paragraph:

[0023] Referring to FIG. 3, a color filter according to ~~an alternative a~~ second embodiment of the present invention is shown. The color filter 40 has substantially the same structure as that of the color filter 30, except that the black matrix 33 is covered by two resin parts 322, 323 of adjacent RGB color resins. The two resin parts 322, 323 of RGB resins covering the black matrix 33 are lapped one on the other on the black matrix 43, and cooperatively cover an entirety of the black matrix 43.
